

Information on REACH Consortia/Associations

Antimony

April 2025

General Information																																		
Name of commodity/association	International Antimony Association (i2a) (Belgian non-profit association v.z.w.)																																	
Name of consortium/consortia	International Antimony Association (i2a)																																	
Official launch on (date)	January 2008																																	
Contact?																																		
Scope (e.g. substances, activities)	<p>The International Antimony Association (i2a) is a non-profit association whose mission is to gather, study and disseminate information on the safe use of antimony and antimony compounds, especially with regard to the relevant environmental, health and safety regulations.</p> <p>In the specific context of EU-REACH and EU-CLP, i2a acts as Secretariat to support lead and member registrants of joint submissions of data on antimony and antimony compounds. In this role, i2a monitors scientific developments and changes in the REACH and CLP regulations, prepare the relevant registration dossier updates, and provides access to the resulting data, risk assessment and classification conclusions, as relevant.</p> <p>Since 2017, i2a has been supporting registrants with the Evaluation processes as well.</p> <table> <tr> <th></th><th>Name</th><th>EC#</th><th>CAS#</th><th>Tonnage band (t/a)</th></tr> <tr> <td>Sb</td><td>ANTIMONY METAL</td><td>231-146-5</td><td>7440-36-0</td><td>> 1000</td></tr> <tr> <td>ATO</td><td>DIANTIMONY TRIOXIDE</td><td>215-175-0</td><td>1309-64-4</td><td>> 1000</td></tr> <tr> <td>SHHA</td><td>SODIUM HEXAHYDROXOANTIMONATE</td><td>251-735-0</td><td>33908-66-6</td><td>> 1000</td></tr> <tr> <td>SAA</td><td>SODIUM ANTIMONATE (A)</td><td>239-444-7</td><td>15432-85-6</td><td>100-1000</td></tr> <tr> <td>ATEG</td><td>DIANTIMONYTRIS(ethylene glycolate)</td><td>249-820-2</td><td>29736-75-2</td><td>100-1000</td></tr> </table>					Name	EC#	CAS#	Tonnage band (t/a)	Sb	ANTIMONY METAL	231-146-5	7440-36-0	> 1000	ATO	DIANTIMONY TRIOXIDE	215-175-0	1309-64-4	> 1000	SHHA	SODIUM HEXAHYDROXOANTIMONATE	251-735-0	33908-66-6	> 1000	SAA	SODIUM ANTIMONATE (A)	239-444-7	15432-85-6	100-1000	ATEG	DIANTIMONYTRIS(ethylene glycolate)	249-820-2	29736-75-2	100-1000

Contact?					
Number of members + comment if appropriate	19 full and 9 associate members				
Minimum fee for consortium	5,300 euro (annual membership fee for smallest tonnage band in 2022) (companies become member of the i2a association. There is no separate consortium).				
Brief description of membership profile (e.g. manufacturers, ORs, companies per legal entity etc.)	Full Membership is open to legal entities who are producers or importers of antimony compounds. Associate Membership is open to legal entities that do not produce antimony compounds but are stakeholders who have a commercial interest in antimony compounds, such as distributors or customers of the Full Members. Companies that need to REACH register are always full members. ORs are NOT member of i2a, their client(s) is(are). All legal entities of a company are included in one membership fee for a company: tonnages are added up for all Sb substances, which then define the tonnage class.				

Status and Comments	
Major review of agreement and structure (if relevant)	We are since January 2008 a non-profit association. The Internal Agreement was updated in 2010, and then again in 2012, together with the By-laws of the Association. The last update was performed in 2025.
Support on REACH-type regulations (e.g. Korea, Turkey, UK)	We do provide data for all other non Eu REACH like systems.
Other comments (if relevant)
