<b>Number of members + comment if appropriate</b>	19 full and 9 associate members				
<b>Minimum fee for consortium</b>	5,350 euro (annual membership fee for smallest tonnage band in 2025) (companies become member of the i2a association. There is no separate consortium).				
<b>Brief description of membership profile (e.g. manufacturers, ORs, companies per legal entity etc.)</b>	Full Membership is open to legal entities who are producers or importers of antimony compounds. Associate Membership is open to legal entities that do not produce antimony compounds but are stakeholders who have a commercial interest in antimony compounds, such as distributors or customers of the Full Members. Companies that need to REACH register are always full members. ORs are NOT member of i2a, their client(s) is(are). All legal entities of a company are included in one membership fee for a company: tonnages are added up for all Sb substances, which then define the tonnage class.				

Status and Comments	
<b>Major review of agreement and structure (if relevant)</b>	We are since January 2008 a non-profit association. The Internal Agreement was updated in 2010, and then again in 2012, together with the By-laws of the Association. The last update was performed in 2025.
<b>Support on REACH-type regulations (e.g. Korea, Turkey, UK)</b>	We do provide data for all other non Eu REACH like systems.
<b>Other comments (if relevant)</b>
