

Information on REACH Consortia

Lithium REACH Consortium

February 2025

General Information	
Name of commodity/association	Lithium salts
Name of consortia(um)	Lithium REACH Consortium
Official launch on (date)	3 rd October 2008
Scope (e.g. substances, activities)	Registration dossier, evaluation of dossier and substance, data sharing of the following substances: LiCl, LiOH (incl. monohydrate), Li ₂ CO ₃ (>1000 tpa) LiNO ₃ , Li metal, LiBr (100-1000 tpa) Li ₂ SO ₄ (incl.monohydrate), LiAc (incl. dihydrate), LiF, Li ₃ PO ₄ (10-100 tpa) and the following intermediates: n-Butyllithium, sec-Butyllithium, tert-Butyllithium, Lithium hexamethyldisilazide, n-Hexyllithium, Phenyllithium, Lithium diisopropylamide, Lithium tri-(tertbutoxy) aluminiumhydride, Lithium methoxide, Lithium t-amoxide
Contact?	
Number of members + comment if appropriate	2 regular members, plus > 60 co-registrants
Minimum fee for consortium	In order to get access to the data required under REACH substance specific and volume based fees need to be paid. Fee inquiries can be made via the substance specific email addresses. So far there has only been interest in single substances or a small group of substances by companies who are non-member of the consortium.
Brief description of membership profile (e.g. manufacturers, ORs, companies per legal entity etc.)	EU manufacturers, non-EU manufacturers, importers and ORs

Status and Comments	
Major review of agreement and structure (if relevant)	Structure has been reviewed several times during the last years. Agreements for Letter of Access are ready and available.
Support on REACH-type regulations (e.g. Korea, Turkey, UK)	
Other
